

JCS BANDING

- ✓ Suitable for a vast range of applications
- ✓ Compact quick to fit
- ✓ Available in Zinc Plated Mild Steel and 304 Stainless Steel

HIGH PERFORMANCE HOSE CLIPS

JCS BANDING

JCS Banding comes in zinc-plated mild steel or 304 stainless steel, and is supplied in 10m and 30m coils (other lengths available to special order).

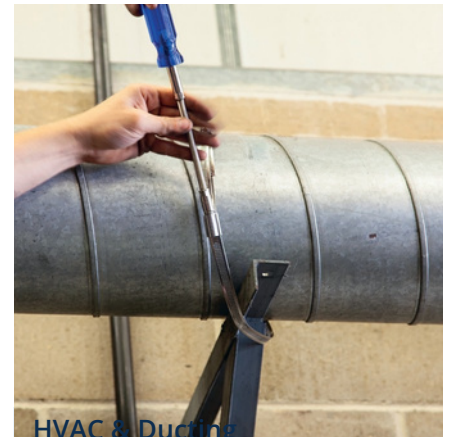

ZINC PLATED STEEL

Our unique in-house zinc plating process provides thorough protection and a bright finish.

STAINLESS STEEL 304

All components, including the screws, are made from the same grade of stainless steel for unrivalled consistency and performance.

HVAC & Ducting

EASY TO USE

Compact quick to fit and with no loose parts. No specialist tools or training required for installation.

VERSATILE

JCS banding is ideal for a wide range of applications. Suitable for mounting on all shapes and sizes of supports.

RE-USABLE

Easily adjusted, repositioned and can be reused too.

Simple as 1-2-3

1

Measure out banding.

2

Cut banding strip.

3

Secure in place.
